ABOUT THIS CATALOGUE

Every part of the stair, shown large enough to specify.

Each part is printed with its drawing and sizes, and with the full code the counter orders it by.

We are a Houston millwork supplier — mouldings, stair parts, trim and custom runs for builders, remodelers and the dealers who serve them. Treads are milled in-house and the core sizes are stocked at NW Houston / Tanner Rd. Newels, balusters, rail, fittings and iron are brought in to order, typically in 2–5 business days.

CRAFTED IN-HOUSE SERVICE-DRIVEN TRADE-PROVEN

CONTENTS

01 Treads & Risers 10 — 4

02 Starting Steps & Stair Mouldings 8 — 9

03 Wood Newels & Balusters 55 — 12

04 Handrails & Fittings 72 — 22

05 Iron Balusters & Newels 64 — 38

06 Installation Hardware 14 — 48

Ordering · Index — 51

Fig. 01 Red oak treads, turned newels and a continuous rail. Illustrative.

SPECIES

The species is in the code.

Wood parts carry the species at the end of the code: **UW-4045-O** is the 4045 newel in red oak, **UW-4045-WO** in white oak. Treads put it in the middle: **8070RO48** is an 8070 tread, red oak, 48".

O / RO

Red Oak

Open grain, warm cast. The standard stair species; treads milled here.

WO

White Oak

Tight, straight grain. Treads milled here.

M

Maple

Close grain, pale and hard.

P

Poplar

Smooth and stable; the paint-grade hardwood.

Also: PR / PRG primed paint grade · H hemlock. Iron finishes: SB satin black · LSB low sheen black · ORB oil rubbed bronze · ORC oil rubbed copper · PC silver vein. Natural colour varies; swatches are unfinished.

THE CARD

The part number heads each card, with the part name and its key sizes. The picture is the part's catalogue drawing with its turning and section heights, so a newel or baluster can be checked against the rail height before it is ordered.

STOCKED · WILL-CALL

TEAL codes are on the shelf at Tanner Rd: the core treads and landings, the primed riser, and the black iron core. Quote the whole code at the counter.

SPECIAL ORDER · 2–5 DAYS

MAROON codes are brought in to order and typically arrive in 2–5 business days.

MATCHING PARTS

Fittings are cut to a rail profile — 6010, 6210, 6710, 684 or 6040 — and the code says which. Match shoes and knuckles to the baluster size (1/2", 9/16" or 3/4") and finish.

01

Treads & Risers

Solid 1" Red Oak and White Oak treads, edge-glued and milled here at Tanner Rd — never veneered. The core sizes are on the shelf for will-call, with the returned ends, retro-fit overlays, landings and the primed riser that go with them.

ORDERING & WILL-CALL

Order by the code. Pick up at Tanner Rd.

QUOTES & ORDERS

Send the code, species, length and quantity to **orders@uniquewoodproducts.com**. Quotes, purchase orders and scheduling go through the same address.

WILL-CALL

NW Houston / Tanner Rd · 9915 Tanner Road.
Mon–Fri 7:30 AM – 4:30 PM
Sat 8:00 AM – 12:00 PM · Sun closed

STOCKED · WILL-CALL

Teal codes are on the shelf: the core treads and landings, the primed riser, and the black iron core. Quote the whole code.

SPECIAL ORDER · 2–5 DAYS

Maroon codes are brought in to order and typically arrive in 2–5 business days.

CUSTOM TREADS & RAIL

Thick, wide, pie-shaped, curved and edge-grain treads, and UWP rail profiles, are milled here to order. Configure a tread at uniquewoodproducts.com.
